

SecurityServer 4.01 Built-in Elliptic Curves

1 SecurityServer 4.01 Elliptic Curves

SecurityServer 4.01 offers a collection of built-in elliptic curves. Each curve is specified by elliptic curve domain parameters and identified by a name.

The following table lists all built-in elliptic curves by their name, denotes the bit size of its domain parameters (i.e. the key size) and references the specification where the respective curve and its domain parameters are defined.
